

Lancing Business Park - charity of the year 2023

First, on behalf of everyone at Electric Storm Youth (ESY) and especially the young people who use and rely on our services, I would like to thank Lancing Business Park for choosing ESY as your charity of the year 2023.

Your support and potential funding will help raise our profile within the business community and hopefully lead to corporate donations. Your donations will enable us to maintain our 1-2-1 mental health sessions with a dedicated therapist and set up open access mental health support workshops and activities delivered through our Senior Youth Worker.

- **£224** will allow us to support one young person through a six-week 1-2-1 mental health counselling course with a dedicated Your Space Therapies counsellor.
- **£5,600** would allow all twenty-five young people currently on our waiting list have access to our 1-2-1 mental health service.

In addition to mental health counselling our vital work with young people also includes support for young carers, drop-in sessions, detached outreach (helping to tackle anti-social behaviour, youth forum and practical life-skill sessions).

If you like to know more how your business can support our work or to donate, please contact me at john.randall@electricstormyouth.co.uk

Once again thank you for your support.

Kind regards

John Randall (he/him)
